Course description

Have you ever wondered why the sky is blue whilst sun sets are red, or why you can drink water whilst stood on your head? This practical course will explore some of the things we encounter everyday from different perspectives and is a great start for the student wishing to progress into the sciences.

What can this course lead to?

This course is beneficial for those who have been out of education or work for a while and are looking to gain new knowledge and skills. You could progress on to further short courses and then progress to gaining a qualification. Our Student Support Services team will work with you to design a personalised learning journey based on your needs and aspirations.
