Need more information?

You can find out more about Northern College and the courses on offer by calling us on 01226 776000 or emailing us_courses@northern.ac.uk

Course description

The Functional Skills qualifications are based around skills needed for everyday life.

On this course, you will develop a practical and useful skillset enabling you to solve mathematical problems and make decisions using maths.

Whilst also gaining a nationally recognised qualification.

What can this course lead to?

Functional Skills are a nationally recognised qualification.

Level 2 Functional Skills are now regularly accepted by employers and universities as equivalent to GCSE maths grade 4 (previously known as grade C).

If you are looking gain a Functional Skills Level 2 qualification so that you can attend a specific university course, please do check the entry requirements for the university course as while most universities will accept a functional skills level 2 some course pathways require a GCSE.

If you are not sure if you need a functional skills or GCSE qualification, please do contract us for an Advice and Guidance appointment where we can discuss the various options with you.
