Northern College

Digital and IT

What is Virtual Reality

We've all heard of Virtual Reality, but what is it, how does it work, and where is it headed? In this course you'll learn what VR is and experience it first-hand using a headset and controllers. You'll explore where the technology is headed and the benefits it can bring to society.

What are the entry requirements?

No formal requirements; students will be required to have completed the Next Steps in Computers course, or already have digital skills equivalent to those listed in that course's description.

Need more information?

You can find out more about Northern College and the courses on offer by calling us on 01226 776000 or emailing us courses@northern.ac.uk

What can this course lead to?

Combined with other Northern College courses (such as Intro to Programming) this course could lead to other VR themed courses such as Creating Content for VR and Building VR Environments.
