Course description

Ever thought about designing a garden that thrives through the winter months? This course is the perfect starting point. You'll learn the essentials of garden design with a seasonal focus, beginning with a detailed garden survey. From there, we'll guide you through the key stages of the design process and explore principles that help create inviting outdoor spaces even in colder weather. You'll also discover how to incorporate winter-friendly features and plants into your plans. By the end, you'll have the skills to produce a basic garden design that brings beauty and structure to your garden all year round.
