

## Computer Programming & Web Design (NonReg / Introduction)

---

This course will pull together a range of skills learned on previous courses to build an interactive web application using HTML, CSS, and JavaScript. Learn how to build websites and apps that work on a variety of screen sizes and understand some of the main technologies that make the web work.

When does this start and end?	What are the entry requirements?	Need more information?
<ul style="list-style-type: none"><li>10 November 2025 - 2 December 2025</li></ul>	There are no formal requirements, but students will be required to have some familiarity with HTML, CSS, and JavaScript, as well as with using Visual Studio Code and GitHub. All of these skills can be learned in the college's Introduction to Creating Webpages, Creating More Webpages, and Introducing Computer Programming courses.	You can find out more about Northern College and the courses on offer by calling us on 01226 776000 or emailing us <a href="mailto:courses@northern.ac.uk">courses@northern.ac.uk</a>
