

# Digital and IT

## Further Artificial Intelligence (NonReg / Introduction)

---

This course will take your understanding of Artificial Intelligence further by exploring the impact, both positive and negative, of AI on individuals, society, and businesses. You will also learn how to program a simple AI model that can recognise sound, facial expressions, or motions.

### What are the entry requirements?

Students will need to have completed the college's What is Artificial Intelligence course, as well as the Next Steps with Computers course (or already have digital skills equivalent to those listed in that course's description).

### Need more information?

You can find out more about Northern College and the courses on offer by calling us on 01226 776000 or emailing us [courses@northern.ac.uk](mailto:courses@northern.ac.uk)

## What can this course lead to?

---

Developing further understanding of AI in our digital world is vital, but this course will also offer a glimpse into how individuals can harness AI for their own purposes, and could lead on to more advanced digital courses at the college.

## Want to learn more?

---

You can find out more about Northern College and the courses on offer at one of our Open Events [<https://www.northern.ac.uk/open-events/>]
